

Czech Rocket Society

Czech Rocket Society an **independent association** for **Czech university and high school students** who are passionate about space exploration and rocketry. The members of the society **study** not only across the Czech Republic, but also abroad.

The future of the rocket industry

We provide students and young professionals with **the opportunity** to apply their knowledge in practice while learning independently, experimenting, and **testing new ideas**.

We aim to take a comprehensive approach to rocketry and aerospace, which is why we focus not only on the technical aspects but also on the **legal regulations** surrounding rockets and aviation.

Our projects and other activities

We **promote** and expand interest in **rocket science**. We participate in educational events, attend trade fairs, and **organize** the **Czech Rocket Challenge**, a competition for university and high school students from the Czech Republic.

Examples of our current projects:

StarFox

Liquid fuel
rocket engine
demonstrator

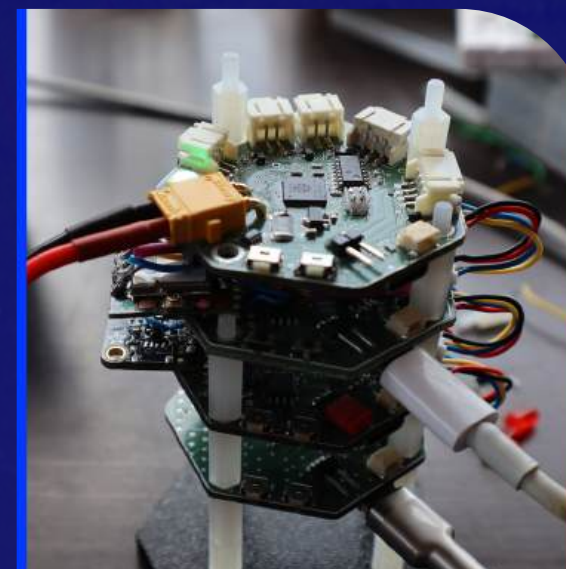

Sherpa

rocket launcher for
the high school
CanSat competition

Solids

development and
testing of solid fuel
engines

Avionics

development of
flight computers,
SW and HW for
rockets

Recovery

development of
parachute system
for rockets
